Journal of Mathematics Education

Editorial

- 1 Integrating Mathematics and Music in Education: After 60 Years, Can We Reunite the Separated Twins?
Song A. An

Research Article

- 4 Uncovering the Mathematical Challenges and Connections When Using Mariachi Music as a Representation for Teaching Equivalent Fractions
Crystal A. Kalinec-Craig
- 22 An Investigation of the Impact of Non-Band Music on Six Graders' Mathematics Achievement
Sherica D. Jones-Lewis
- 39 Music Activities as an Impetus for Hispanic Elementary Students' Mathematical Disposition
Song A. An, Meilan Zhang, Maria Flores, Judith Chapman, Daniel Tillman & Lisa Serna
- 56 Integration of Math Jingles into Physiology Courses
Gregory J. Crowther, Katie Davis, Lekelia D. Jenkins, & Jennifer L. Breckler
- 30 I've Got the Power: Representations of Mathematical Skills and Abilities within Popular Movies about Successful Hip Hop Musicians
Daniel Tillman, Joycelyn Wilson, Meilan Zhang, Dimitri Camsat, Francisco Galindo & Song A. An
- 97 A Quasi-Experimental Study of Using Music-Related Concepts to Teach High School Geometry
Vytas Nagisetty

Commentary

- 115 Using Live Reggae Instrumental Acoustic Music to Influence Students' Mathematics Test Scores
Glenroy Pinnock
- 126 Teaching Modeling in Algebra and Geometry using Musical Rhythms: Teachers' Perceptions on Effectiveness
Iman Chahine & Mariana Montiel
- 139 Brain Research on the Study of Music and Mathematics: A Meta-Synthesis
Jeff Cranmore & Jeanne Tunks
- 158 "American Pi": The Story of a Song About Pi
Lawrence M. Lesser
